

Colours for windows and doors

Colours options of external **aluminium cladding** for windows, as well as internal and **external colours** for entrance doors.

Standard colours*

hiest-Colours***

HDS Colours**

Stainless-steel colours for external window cladding/doors

Stainless-steel colours****

* **Highly weather-resistant**, except for M916 (facade quality)

** Intensive colour, variation possible.

*** For surface options **HM** (highly weather-resistant standard colour), **HF** (highly weather-resistant fine structure), **HFM** (highly weather-resistant fine structure metallic) a special, highly weather-resistant powder coating is used.

**** Only possible on both sides of door frame

***** Real wood, not suitable for every installation site. Please check with your distribution partner.

Special decor for the exterior of entrance doors

SD colours

Timber standard colours for the interior of windows and doors

SPRUCE varnished

TIMBER opaque

LARCH varnished

WALNUT

OAK

NOTES: Timber is a natural product. Each window is therefore unique. The final shade of colour is resultant of the natural timber properties and the shade of the impregnation. The more accentuated the structure, colour and surface of the timber, the more deviations from the colour samples may occur.

Special colours

The **Internorm RAL colour programme** offers a range of design options (facade quality). You can choose these colours for the exterior of the aluminium cladding and timber for the interior.

Please note that not every colour is available for every window or door.

Due to printing and manufacturing conditions, colour and structural deviations can occur between the illustrations and the original products.

Your **Internorm 1st window partner** will be able to show you the original colour samples.
